Pages:	15-16		
Month:	September		

Note:

Educators, particularly elementary school teachers, play a pivotal role in the development of a science culture in Canada and can enhance science learning in their classroom through a variety of resources, including Let's Talk Science. Let's Talk Science brings science, technology and mathematics to the classroom with fun and innovative hands-on activities that engage and encourage people to understand the importance of science in their lives, as well as increasing teachers confidence and ability to teach science more effectively.
