

Writing Science for Preschool Educators. ScienceLink 26(2): 7.

Research Area:		Year:	2005
Type of Publication:	Article	Keywords:	exploration, science writing, early-years, education, Wings of Discovery, discovery, science for young children, Lets Talk Science, real world, hands-on, engage, learning analogies, simulations
Authors:	Taylor, S.		
Journal:	ScienceLink	Volume:	26
Number:	2	Pages:	7

Note:

To engage children in learning, a hands-on, real world approach is ideal and can encourage young children to become aware of the world beyond their immediate environment. Young children are capable of understanding sophisticated concepts, providing they are explained in an appropriate manner. Analogies and simulations can illustrate such sophisticated concepts and allow children to make connections between a hands-on demonstration and the real world without difficulty, also enhancing their understanding and use of knowledge
