Parents are influential, but not having the talk with their kids

In fact, no province requires a Grade 12 science course for graduation.

31% of parents believe science is a mandatory academic requirement through high school — it isn’t!

Parents would choose to spend extra money at school on STEM:

- 46% STEM
- 26% English/Language
- 18% Music/Arts

Parents see the value of STEM:

- 75% of parents say most jobs will need at least basic math and science

Parents need to have the talk with their kids about the value of STEM education.
