

## LET'S TALK SCIENCE POSITION POSTING

*Position Title:* UX/UI Designer Intern  
*Position Status:* 37.5 hours per week for 16 weeks  
*Closing Date:* March 14, 2021

### THE OPPORTUNITY

Let's Talk Science is an award-winning, national, charitable organization focused on education and outreach to support youth development. We create and deliver unique learning programs and services that engage children, youth and educators in science, technology, engineering and math (STEM) to support learning and skill development. Our programs, resources and services, we motivate and empower children and youth of all ages in Canada to fulfill their potential and prepare for their future careers and roles as citizens. Let's Talk Science has excited, inspired and engaged more than 9 million children, youth, educators and volunteers in STEM since its inception.

This position is located in based in London, ON. However, work from a home office may be negotiable for the right candidate. This position will report to the Project Manager, Digital Platforms at Let's Talk Science. In addition, this position will work closely with the other members of the Digital Platforms team as needed based on projects assigned. Please note that due to COVID-19 Let's Talk Science is currently encouraging staff to work remotely when possible.

We invite you to visit our web site ([letstalkscience.ca](http://letstalkscience.ca)) to learn more about our organization.

### POSITION

The UX/UI Designer Intern will participate in all phases of the creation of visual user experiences, including ideation, prototyping and execution for a variety of new and existing digital products.

### RESPONSIBILITIES:

- Work closely with developers and content creators to bring concepts to life and create compelling visual experiences
- Develop information architecture, journey maps, wireframes, prototypes and production-ready digital assets for a variety of new and existing projects
- Assist with the maintenance, expansion and transformation of existing digital initiatives, ensuring visual coherence with organizational brand and style guides
- Participate in the implementation of finished assets, including incorporating front-end functionalities and features into different web properties
- Advocate and be an ambassador for clean, intuitive, compelling and innovative layouts
- Other duties as requested/required within the scope of the position

### REQUIREMENTS/QUALIFICATIONS

- Some post-secondary studies with a focus in graphic design, digital media, web development, or a related discipline
- Showcase of excellent visual design skills with an online portfolio
- Ability to deliver production-ready digital assets for web development in a wide variety of formats (e.g.: Sketch, InVision, etc.)
- Intermediate to advanced understanding of the Adobe software suite
- Knowledge of wireframe tools (e.g., Balsamiq, Zeplin, etc.)
- Solid understanding of HTML, CSS/SCSS, Javascript as it pertains to front end development
- Basic knowledge of agile practices and processes
- Strong interpersonal skills and experience working in a team environment

## **SKILLS AND ABILITIES**

- Comfortable working independently and with colleagues and team members
- Excellent technical skills and detail oriented
- Ability to be flexible and work with multiple evolving projects at the same time
- Comfort with technology and an ability to learn new software

Interested candidates should submit their resume and cover letter including salary expectations and quoting “UX/UI Designer Intern” by **11:59 pm EDT on March 14, 2021** to:
