

The Great North American Eclipse

Observational Log

I am located in _____ (city/town) and I can begin to observe the eclipse at _____ (time). The peak of the eclipse will be at _____ (time).

Observational Log:

Record the time and your observations at different points in time.

Time	Observations – draw what you see through your eclipse glasses or viewer!

Optional: record any notes about what you observe during the eclipse, such as the light level, along with your drawing.

Safety is the #1 priority when viewing the solar eclipse. It is not safe to look directly at the Sun without specialized eye protection for solar viewing. And remember - regular sunglasses are not appropriate for safely viewing an eclipse.
